Points can be converted into discounts to be applied at the cash desk at any time, at a conversion rate that depends on the customer's points score.

The Loyalty Programme has three levels depending on total purchases:

Fan (programme entry level): total purchases up to 49.99 euros In this level, 1 point is awarded for every euro spent. Points can be converted into a discount of 10% of the value of the purchase being made;

Friend (next level up): level for customers with total purchases between 50.00 and 149.99 euros in the previous 90 days. In this level, 1.5 points are awarded for every euro spent. Points can be converted into a discount of 15% of the purchase being made. Customers whose purchases are no longer within this range at the end of the 90 days will return to the previous level.

VIP (highest level): level for customers with total purchases over 150.00 euros in the previous 90 days. In this level, 2 points are awarded for every euro spent. Points can be converted into a discount of 20% of the purchase being made. Customers whose purchases are no longer within this range at the end of the 90 days will return to the previous level.

As well as the points gained from purchases at the bar, restaurant or store, participants enjoy **the exclusive Chef Express Loyalty Programme benefits** which are independent of the level achieved:

- **Bar, restaurant or store purchases amounting to over 20 euros: 5 extra points.** This bonus is awarded whenever you spend more than 20 euros at the bar, restaurant or store.
- **Happy Birthday: 20 bonus points awarded on your birthday. This discount must be used within thirty days after the date of your birthday.**

The points score will be updated within no more than 12 hours after every purchase, and the points total and level are displayed in the mobile app. Once you enter a new level, you can benefit from the new point allocation rate and the new conversion rate at once. When you use a discount, the relative points will be cleared from your account. You must have at least 20 points to be able to claim a discount. You cannot use a discount on the purchase which brought you over the minimum threshold, but only from the next purchase. Customers who have gained

the necessary points must inform the cashier that they wish to use the discount before the tax receipt is issued. If the amount of the discount is equal to or above the amount of eligible products within the current purchase, the system will offer redemption of a discount equal to the entire amount.
